Mr. Derris Banks, Supervisor USPTO

Dear Mr. Banks:

This letter is a follow-up of my phone message to you this morning. My past written responses have requested the examiners' help writing at least one claim. I have not received help or even suggestions. Additionally, I have called Ms. Williams on several occasions and found it very difficult to reach her.

I plead with you and the patent office to extend my time to prosecute the above cited application by at least the amount of time I have not received the above mentioned requested assistance.

Very sincerely and respectfully yours,

  
Craig L. Linden
